Broadband Light (BBL) Treatments

BBL Corrective: Address freckles and age spots, small blood vessels and rosacea, acne, aging skin, and loss of firmness. The light energy delivered by BBL will gently heat the upper layers of your skin. The heat absorbed by the targeted areas will stimulate your skin cells to regenerate. This process will restore your skin to its natural beauty, making it clearer, smoother, vibrant and younger looking. **Face: \$375**

Forever Young BBL: Keep your skin looking clearer, smoother and younger with the only treatment shown to change the expression of genes associated with aging, longevity and increased lifespan. This is the maintenance phase of BBL Corrective Phototherapy. **Face: \$350**

Forever Clear BBL: A cutting-edge acne treatment that uses the power of light to comfortably and effectively clear acne without creams or medicine. BBL is the world's most powerful IPL (Intense Pulsed Light) device delivering light energy deep into your skin to stimulate and regenerate your skin cells, leaving you with clear, healthy, radiant skin. **Face: \$350**

Forever Bare BBL: Hair removal treatment that is safe, fast, efficacious, and comfortable. The motion BBL technology allows for extremely even heating of hair follicles and minimizes missed areas that occur with traditional hair removal devices. **Face: \$150**

BBL SkinTyte: Firming treatment used in conjunction with BBL Corrective or Forever Young BBL to further promote a renewed collagen foundation leading to increased skin firmness in a comfortable and safe procedure with no downtime. **\$450. \$250 when combined with BBL Corrective or Forever Young.**

Collagen Building Treatments

ClearSilk: ClearSilk by Sciton addresses minor skin imperfections and boosts skin revitalization with a non-ablative no downtime solution. As the heat rises slowly to the target temperature, it causes bulk heating encouraging the body's natural response to clear pigment, reduce vascularity and improve the overall appearance of tissue. Indications: Fine lines and wrinkles, pigmented lesions, diffuse redness, rosacea, improved luminosity, acne scars, skin revitalization. ClearSilk is often combined with Corrective BBL to treat rosacea. **\$295. \$600 when combined with BBL.**

Fotona Toning/Acne TX: Improvement of acne and anti-aging effects. The laser beam from Fotona Laser penetrates deep into the skin at a uniform wavelength and can reach the main target with high accuracy. Thus, it can penetrate into the sebaceous glands and treat acne inflammation, while at the same time promote collagen generation to improve the skin tone and texture. In addition to its thermal penetration effects, the Nd:YAG laser treatment also accelerates the healing process and stimulates collagen remodeling, an important step in the long-term treatment of acne. **\$200**

SkinPen Precision Microneedling: Reclaim your complexion!

SkinPen by Bellus Medical is the first and only FDA-cleared microneedling device. It causes controlled micro-injuries that stimulate your body's natural wound healing process, while minimizing cellular damage. The result is effective remodeling of scar tissue, while keeping the overall structure of the skin intact. Tightens skin, reduces the appearance of pore size, addresses fine lines and wrinkles while improving tone and texture. Ideal for acne scarring! **\$300**

Vivace RF Needling: Let's Face It! We want to look our best at every age—not over-filled and over-stretched, just natural. We want to age gracefully, beautifully and elegantly. Inevitably, fine lines and wrinkles set in, and now there is a simple, minimally-invasive treatment that will address those concerns and have you out to dinner that same night. Alleviates wrinkles and fine lines, tightens skin, minimizes pore size, improves skin tone and texture, immediate results with no downtime. **\$650**

Genius 990 PRP: Platelet Rich Plasma (PRP) is used in conjunction with microneedling to further stimulate the production of collagen as well as promote faster healing. Unlike other PRP centrifuges, Genius 990 yields 70-80% intact platelets, whereas traditional PRP devices only yield 10-15% of intact platelets. PRP can also be injected to rejuvenate skin from the inside out. Scalp injections can also promote hair growth. **\$500**

Ultherapy: Ultherapy is the only non-invasive procedure FDA-cleared to lift skin on the neck, under the chin and on the eyebrow. Now also FDA-cleared to improve the appearance of lines and wrinkles on the décolletage, Ultherapy can help you achieve a fresher look from your brow to your chest! **\$2,500**

Vascular Laser

Vascular Laser: Vascular lesions, caused by enlarged or broken blood vessels, can take many forms all over the body — from rosacea and port wine stains to spider veins and birthmarks. Vascular lesions usually do not go away on their own, which is why many patients are seeking treatment options. Indications: Telangiectasia, reticular and spider veins, matting, bruising, rosacea, port wine stains, cherry hemangioma, hemangioma, venous lake, vascular malformations. **\$200**

ClearToe for Nail Fungus: The ClearSense system is a laser delivery technology for cosmetic improvement of dermatologic conditions including the temporary increase in clear nail for patients with onychomycosis. **\$200**

Laser Tattoo Removal

The QX MAX laser with its unique combination of laser wavelengths can remove all common tattoo ink colors including; black and dark tones, light blues, red, tans and greens. **\$75 1st square inch, \$25 each subsequent square inch.**

Volume Replacement

Fillers: We carry a wide array of fillers that replace volume and bone loss we lose throughout the aging process. Your injector will select the appropriate type of filler to address your skin care concerns and needs. Fillers we carry include the Restylane family of fillers, Radiesse+ and Belotero Balance. Common areas addressed by filler are the smile lines/parentheses lines, cheekbones, jawline and jowls.

Restylane – L: \$600/syringe

Restylane Lyft: \$600/syringe

Restylane Defyne: \$650/syringe

Restylane Refyne: \$650/syringe

Radiesse+: \$550/syringe

Belotero Balance: \$550/syringe

Wrinkle Relaxers

Wrinkle relaxers work by relaxing the muscles responsible for static (set-in) lines such as the crow's feet, forehead lines and between the brows. Wrinkle relaxers can also relax the prominent bands of the neck. We offer Xeomin, Dysport and Botox. Your injector will select the appropriate product and customize your treatment based on your skin care concerns and needs.

Xeomin: \$11/unit

Dysport: \$5/unit

Botox Physician: \$14.50/unit

Botox Non-Physician: \$11/unit

AquaGold Finetouch Mesotherapy

The perfect finishing touch! AQUAGOLD® fine touch™ is a revolutionary micro injector device which features an array of twenty microchannels. It painlessly and effectively delivers solution via 24-carat gold plated surgical grade stainless steel needles, thinner than a human hair!

Twenty hollow spiral micro-channels create tiny punctures into the skin, allowing for the efficient delivery of small droplets of treatment directly to the dermis. Depending on your skin care needs and concerns, your injector will develop a customized treatment utilizing filler, wrinkle relaxer, HA, vitamin C, etc. just for you. **\$500**

Chemical Exfoliation

Vitality Institute (VI) Peels are medical grade medium-depth in-office peels that result in moderate to advanced peeling with 2-10 days of downtime, depending on strength. Type and strength of peel will be determined by your skin care specialist at Associated Dermatology!

VI Peel: Aging is inevitable but the VI Peel can make a difference in as little as 7 days. Specifically formulated to rejuvenate aging skin and help prevent future damage, VI Peel softens fine lines and wrinkles, restores a more even skin tone and smooths away rough skin texture. **\$300**

VI Peel Precision: Your peel for more advanced aging skin. Precision is a booster to be used together with the VI Peel. It is formulated with the same synergistic blend of ingredients as VI Peel but at a higher concentration. For when your peel needs that extra boost! Specifically formulated to rejuvenate harder to treat aging skin and help prevent future damage, often fine lines and wrinkles. **\$380**

VI Peel Precision Plus: Your Peel For Sun Spots and Pigmented Skin. Specifically formulated for pigmented skin, VI Peel Precision Plus reduces the appearance of age spots, brightens even the most stubborn areas of discoloration including melasma and smooths away rough skin texture. **\$400**

VI Peel PURIFY: Your Peel For Acne Prone Skin. When pores in the skin become blocked, bacteria builds up leading to breakouts. It's time for VI PURIFY – your targeted solution for acne prone skin. Specifically formulated for acne prone skin, PURIFY clears out dead cells to open pores, kills p.acnes bacteria, and soothes inflammation and redness. **\$300**

VI PURIFY with Precision Plus will help eliminate acne scars and skin damage leaving your skin smooth and clear. Specifically formulated for active acne and acne scars, PURIFY with Precision Plus helps smooth skin texture and repair acne scars, brightens dark areas left after an acne scar, and soothes inflammation and redness. **\$400**

Glytone Professional by Enerpeel® System

Glytone Professional Peels by Enerpeel® are medical grade chemical superficial to medium/medium- deep in-office peels that results in little to moderate downtime depending on strength.

Glytone Professional by Enerpeel® Jessner addresses premature signs of aging, aging and superficial hyperpigmented skin. Reduces the appearance of moderate hyperpigmented skin, improves skin tone, improves skin radiance (brightening effect). **\$125**

Glytone Professional by Enerpeel® MA (Mandelic Acid) addresses skin prone to intermittent to permanent redness. Reduces the appearance of skin redness, improves skin color, texture and pore size. **\$75**

Glytone Professional by Enerpeel® Salicylic Acid addresses acne-prone skin. Helps to reduce the appearance of oily, acne-prone skin, improves complexion brightness, improves overall appearance of skin. **\$75**

Glytone Professional by Enerpeel® Pyruvic Acid addresses oily or thickened acne-prone skin. Addresses photoaging, hyperpigmentation and improves overall appearance of skin. **\$100**

Glytone Professional by Enerpeel® Glycolic Acid 30 addresses signs of premature aging and aging skin. Reduces visible signs of aging: fine lines, wrinkles, photodamage, improves skin texture and tone, increases hydration in stratum corneum and improves skin smoothness. **\$75**

Glytone Professional by Enerpeel® Glycolic Acid 50 addresses signs of premature aging and aging skin. Reduces visible signs of aging: fine lines, wrinkles, photodamage, improves skin texture and tone, increases hydration in stratum corneum and improves skin smoothness. **\$100**

Glytone Professional by Enerpeel® Glycolic Acid 70 addresses signs of premature aging and aging skin. Reduces visible signs of aging: fine lines, wrinkles, photodamage, improves skin texture and tone, increases hydration in stratum corneum, improves skin smoothness. **\$125**

Glytone Professional by Enerpeel® Hands addresses mild-moderate photo-aging of hands. Reduces the appearance of dark spots, improves the appearance of fine lines, small scars and coarse wrinkles on the hands, gives immediate skin brightening effect, improves skin texture and tone. **\$75**

Glytone Professional by Enerpeel® Neck addresses premature aging skin of neck and décolleté. Decreases the appearance of fine lines and wrinkles improves the appearance of mild dark spots around neck and décolleté. **\$125**

Glytone Professional by Enerpeel® TCA-LP addresses chrono- and photo-aging, and moderate hyperpigmented skin. Decreases the appearance of: moderate hyperpigmented skin, fine lines, small scars and coarse wrinkles, pigmentary irregularities and leathery texture of the skin. **\$150**

Glytone Professional by Enerpeel® TCA-STRONG addresses chrono- and photo-aging, and severe hyperpigmented skin. Improves textural inconsistencies, decreases in the appearance of severe hyperpigmented skin and fine lines and deep wrinkles, signs of severe aging. **\$250**

Mechanical Exfoliation

Dermaplaning: Exfoliation helps your skincare products penetrate the skin and improves their results. Dermaplaning removes excess fine hairs which are known for trapping the dirt, oil and dead skin cells in your pores that are the main cause of acne and blemishes. **\$70**

Extractions: When keratin (dead skin cells) build up without proper exfoliation, bumps and lesions can form on the surface of the skin that require a little extra help to resolve. This process involves "unroofing" where an access point is created over the lesion that allows us to express the built-up keratin and resolve the lesion. **\$65**

Epionce Facials

Epionce Facial Treatments are available through physicians only. By improving skin health from within, and protecting it against damaging environmental factors, Epionce products help correct, prevent and protect from the effects of extrinsic skin aging and certain skin conditions. Even if the skin has suffered years of neglect and environmental damage, it is never too late to begin restoring the skin barrier to optimal health.

Epionce Lite Refresh Peel: \$115

Epionce sal-e Treatment: A medical grade facial treatment which cleans out pores to encourage cell turnover. Anti-bacterial and anti-inflammatory properties improve skin clarity and texture. This treatment may be used on various areas of the body. **\$115**

Epionce mal-e Treatment: A medical grade facial treatment which reduces problem bacteria and enhances skin hydration and brightness. Treatment also provides cell turnover with minimal exfoliation. Treatment may be used on the face and other areas of the body. This treatment works to visibly reduce signs of skin aging and acne prone skin. **\$115**

Epionce Combination of mal-e and sal-e Treatment: An advanced facial treatment used for enhanced results. Treatment provides brighter skin, refined pores, greater clarity, and improvement in texture and acne breakouts. **\$130**

Epionce Signature Renewal Facial: A European-style facial with an emphasis on deep cleansing, relaxation and massage. **\$90**

Epionce Skin Calming Treatment for Sensitive Skin: This facial treatment, performed without steam, is designed to help calm to sensitive, reactive or post-procedure skin. This facial treatment helps reduce inflammation and restore the skin barrier. **\$105**

Epionce Pore Purifying Treatment: A deep cleansing facial for oily/problems skin to help loosen pore debris for extraction. With regular treatment, skin be clean, clear and radiant. **\$105**
